## DAY OF EXCITEMENT

Startling Incidents in Matters Pertaining to the Strike.

### THE INJUNCTION CASES HEARD.

No Decision Rendered, but It Is Believed It Will Be Favorable to the Strikers. Mutiny in the Strikers' Camp—Murder in the Deputies' Ranks—The Latest Strike News.

PITTSBURG, Aug. 17.—Yesterday was fraught with exciting incidents in matters pertaining to the miners' strike. Mutiny in the strikers' camp, a murder in the deputies' ranks, filing of criminal and civil suits against the Dearmits, and the hearing in the injunction case against President Dolan and others, kept both sides to the struggle busy and on the qui vive all day long.

The hearing in the injunction case before Judges Stowe and Collier was perhaps one of the most important and interesting ever held in the Pennsylvania court. It was a hearing in which both capital and the rights of labor were interested, and the decision is expected to have a telling effect on the conduct of the great coal miners' strike, which has been on since July 5.

From the testimony adduced, and from the expressions of the court, it can safely be said that there will be some surprises. That the injunction will be materially modified there can be no doubt, which, on its face would indicate a victory for the strikers. The preliminary decree has been continued pending a consultation of the judges, and an opinion will probably be handed down this week.

Judge Collier said in court yesterday that the strike would go down in history as one of the wonders of the century, and remarkable on account of the utter lack of disorder, for which the strikers are commended and have the sympathy of the court. Said he: "There can be no question as to what our duty is under all the testimony, but I am somewhat in doubt as to whether or not the order should be modified. We can not determine this without a consultation."

Judge Stowe said yesterday evening: "This injunction will not justify the issuing of an attachment against any marchers who are not found in company with the men named in the injunction."

He let it be understood that the injunction is not so sweeping as has been thought; that only the five men named in the writ—Patrick Dolan, William Warner, Cameron Miller, Uriah Belligham and Edward McKay—are restrained from marching or trespassing on the company's property. The others mentioned can only be those found in company of the five named in the injunction. As near as can be learned, the strikers under the injunction can march, but not at stated times, as long as they are not in company with any of these defendants.

### DEPUTIES FIGHT.

One of Them Shot and Can Not Possibly Recover.

PITTSBURG, Aug. 17.—Two deputies, Robert Kerr and Frank Anderson, employed as guardians of the New York and Cleveland Gas Coal company, fought yesterday afternoon, and Kerr received fatal injuries. Anderson is proprietor of a dive on Water street, this city, and is known as a bad man. He was in charge of the deputies at Sandy Creek. Kerr, who lives at McKee's Rocks, is a river pilot by occupation. He has served before as a deputy during strikes.

It is not known what the men fought about, but they met on a bridge crossing Plum creek, and after a few words Anderson was seen to hit Kerr, who retaliated, and a rough and tumble fight, lasting about five minutes, followed. Anderson succeeded in drawing his revolver, and placing it close to Kerr's abdomen, fired, the ball tearing through the victim's intestines and lodging in his back. The physicians say he can not recover.

A constable tried to arrest Anderson, but he was prevented by deputies, who said they would hold him until the arrival of the sheriff.

### An Open Rebellion.

PITTSBURG, Aug. 17.—There was open rebellion at the Sandy Creek strikers' camp yesterday. Some 15 or 20 foreigners who were dissatisfied with the commissary complained to Captain May and demanded better food. He told them that the man in charge of the commissary department was doing all right and they were being well treated. The foreigners then threatened to march and Captain May ordered the deputies to arrest them if they did not keep quiet. This had the desired effect and the foreigners returned to their headquarters. There was no trouble at the other camps.

### DEARMIT SUED.

In Addition to Civil Suits For Wages Criminal Suits Are Begun.

PITTSBURG, Aug. 17.—In addition to the civil suits entered against President W. P. Dearmit by his former employees for wages, three criminal suits have been brought against Samuel Dearmit, a brother of the president.

Mrs. Anna Crotol, who was evicted on Saturday by Samuel Dearmit, has brought a criminal suit, charging assault and battery. She says in her charge that her husband was not at home and Dearmit took her by the shoulders and threw her out of the house. She says he held a hatchet

above her head and threatened to kill her. Her two children, (one a sick boy) were also thrown from the house.

John Crotol, her husband, also sues Dearmit for larceny. He claims that after evicting his wife and children and throwing his household goods in the road, Dearmit took away with him a gallon keg of wine and a \$16 revolver of Crotol's, and has since refused to return them.

### IN THE FAIRMONT DISTRICT.

#### Union Men at Work in the Mines Doing Missionary Work.

FAIRMONT, W. Va., Aug. 17.—Wood and O'Connell, headed a large body of miners who marched to the Montana mine, but the rain discomfited them and not much work was done. For several days, if the claims of the organizers are correct, several men in that mine have been members of the mine workers' union and would have come out yesterday but that they thought more missionary work was necessary to make the move general among the miners.

The operators are not getting rich out of this strike. Not a ton of coal is being shipped east, as the sole coal workers of Pennsylvania keep that market supplied. Then again, just before the strike, the three biggest mines in this region received immense lake contracts which must be filled.

At present 500 men at Monongah, 40 at Pritchard, 60 at Montana, 400 at the Clarksburg mine, 80 at Palatine, 20 at New England and 60 at Judge Mason's mine are all out, but three or four times that number are still at work.

### STRIKE EXTENDING.

#### Twenty-Five Hundred Miners in Eastern Pennsylvania Quit Work.

HAZELTON, Pa., Aug. 17.—Twenty-five hundred miners of the Lehigh and Wilkesbarre collieries in the Honeybrook district went on a strike yesterday and at a meeting last night resolved in a body to stand together. This is the first defection among the miners of eastern Pennsylvania. Apart from the wage question the men demand the discharge or transfer of Superintendent Jones and the feeling against him is so strong that he moves about with an armed escort, and his house is guarded day and night.

At the meeting a committee was appointed to wait on Manager Lawall and demand restoration of the system which was in vogue prior to the advent of Superintendent Jones to the district. In the meantime no work will be done at any of the mines in the district. A number of men discharged yesterday were ordered to leave the company houses within five days.

Mr. Lawall came here yesterday evening from Wilkesbarre, in company with Auditor Johnson of New York, and looked over the ground. Mr. Lawall expressed the opinion that the strike might be settled early, but he was not authorized as yet to say how the directors would meet the demands of the men.

### INCENDIARY LANGUAGE USED.

#### Strikers Threaten to Burn Out the Miners Who Are at Work.

GREENSBURG, Pa., Aug. 17.—Wild disorder prevailed in the vicinity of Herminie and the Ocean Coal company's works last night. The 200 miners who came from the river district yesterday were successful in the afternoon in bringing the miners at Herminie out. About 175 men quit work about 3 o'clock. They all marched over to the Arona and Madison works and proceeded to fill up with "Polinki." They threatened the miners at Arona and Madison, which number about 250 men, intimating that if they did not quit work they would be burned out. The incendiary language created much excitement and it is likely that deputy sheriff's will be sent to the scene.

The Madison and Arona miners are not favorable to striking, but consented to attend the meeting of the strikers to-night at Madison. It is expected that a few of the miners at these works will join the strikers, but a great majority will not heed the appeals of the strikers. Mrs. Jones addressed the evening meeting.

### RIOTING BEGUN.

#### Mine Guard Shot at but He Saved Himself by Flight.

CUMBERLAND, Md., Aug. 17.—From information just received here most serious trouble is likely to occur among the miners near Corinth, W. Va., caused by the release of three Italians who were arrested charged with threatening to blow up the mine and brick plant of the Oakland Coal company.

The release of the men tended to encourage the other strikers who, armed with guns, went to the house of six men who had been at work, broke into it and destroyed their property. Ex-Deputy United States Marshal Wheeler was guarding the miners and was shot at, but made his escape to Oakland and reported the facts to Superintendent Anderson, who resides there. Since the rioting has commenced there is no telling where it will end, and great alarm is felt.

AKRON, O., Aug. 17.—It is very probable that some of the men in the Loomis mines at Wadsworth will resume work tomorrow. They might have gone to work today but for the discovery that some time Sunday night all the cars were removed from the mines and taken some distance away. Whose work this was is not known. Manager J. P. Loomis has promised the men protection if they will go to work, and in the event of trouble will have enough deputies sworn in to cope with any who seek to debar the miners from working.

## KLONDIKE'S CLIMATE

### It Can Be Stood Only by Men in Perfect Health.

#### YOU HAD BETTER KEEP AWAY.

An Official Report of the Yukon Mining District Made by the Canadian Land Surveyor Great Difficulty Experienced in Getting Reliable Information From the Miners in Alaska.

NEW YORK, Aug. 17.—The dispatch to The Herald from Washington says: Secretary Gage has just received from the minister of the interior of Canada an official report of the Yukon mining district. It is a condensation of the reports of William Ogilvie, the Dominion land surveyor, and contains other matter from officers of the Canadian government who have previously visited the region or are now there.

At the outset the minister states that the report is published in response to numerous public demands.

"The object," he says, "is not to induce any one to go to that remote country at the present time. Until better means of communication are established a man undertakes serious risks in going there, unless he has sufficient resources to tide over the long winter. After September egress from the country is practically impossible until the following June, and a person who has not been successful in locating a paying claim has to depend for his subsistence upon finding employment. Wages are at times abnormally high, but the labor market is very narrow and easily overstocked."

"It is estimated that up to the middle of May 1,500 persons had crossed the Dyea this year. Whether employment will be available for all and for the considerable population already in the district is somewhat doubtful. It will therefore be wise for those who contemplate going to the Yukon district to give serious consideration to the matter before coming to a decision."

An extract from the report of A. E. Willis, assistant surgeon, for 1895, is given to indicate the climate of the Klondike, and the mode of living. He also describes the kind of men that should go to the Klondike. He says:

"The climate is wet. During the winter months, the cold is intense, with usually considerable wind. A heavy mist rising from open places in the river settles down in the valley in extreme weather. This dampness makes the cold feel much more and is conducive to rheumatic pains, and the like. In selecting men to live in this country, I beg to submit a few remarks to aid the medical examiners.

"Men should be sober, strong and healthy. They should be practical men, able to adapt themselves quickly to their surroundings. Special care should be taken to see that their lungs are sound, that they are free from rheumatism and rheumatic tendency, and their joints, especially knee joints, are strong and have never been weakened by injury or disease. It is important to consider their temperaments. Men should be cheerful, hopeful dispositions and willing workers. Those of sullen, morose natures, although they may be good workers, are very apt as soon as the novelty of the country wears off, to become dissatisfied."

Mr. Ogilvie, chief of the boundary survey, in a report of a trip down the Yukon, says, regarding the weather: "It is said by those familiar with the locality that the storms which rage in the upper altitudes of the coast range during the greater part of the time from October to March are terrific. A man caught in one of them runs the risk of losing his life unless he can reach shelter in a short time."

Mr. Ogilvie on this same trip had much difficulty with the Indians, and they demanded \$20 per 100 pounds for carrying his goods. On being told that the party had a permit from the Great Father in Washington to pass through the country and that the Indians would be punished if they interfered they reduced the price to \$10. Mr. Ogilvie estimates that there are about 400,000 acres of land along the Yukon and its branches that might be used for agricultural purposes. Mr. Ogilvie gives the miners a bad reputation.

He says: "I may say that it is generally very difficult to get any exact or even approximately exact statement of facts or values from miners. Many of them are inveterate jokers, and take delight in joking. The higher the official or social position of the person they hear the better they are pleased.

I have several times found that after spending several hours getting information from one of them it would be all contradicted by the next one I met. Another cause of difficulty in getting trustworthy information from them is that in a certain sense they consider every government official as their enemy, and that he is in the country to spy upon their doings and find out their earnings, which latter the great majority of them are very much averse to have known."

### STAY AWAY FROM ALASKA.

#### An Old Stager Throws Cold Water on the Klondike Rush.

SAN FRANCISCO, Aug. 17.—Henry Gable, an old and experienced miner, who was one of the first to join the rush to the Klondike, has returned and tells a story calculated to deter others from going north to search for gold. There is hardly a trail in California, Arizona, Nevada or Montana with which Gable is not familiar. When the news of the gold strikes reached this country Gable left his mines in Arizona and started

for the Klondike, via Juneau and the Chilkoot pass. Now he is back, having sold his outfit, which cost \$235. He learned from many experienced mining men at Juneau and further up that it would be suicide to go before spring.

He says: "When we reached Barium's bay, which is a little way from Dyea, I gave up the idea. I left the vessel, intending to go to work in the Comet mines there and wait until next spring, when I intended to go to the Klondike. I found the mines deserted, as the men would not work there at this time of the year owing to the water which fills the mines. The Alaskan mining men are positive that nearly all who are trying to get to Dawson City will be frozen up en route until spring and that their fate is uncertain. I will not answer for the lives of the tenderfeet who are now going."

### LOST HIS NERVE.

#### Felts Disappears From Pike's Peak Leaving His Flying Machine.

MANITO, Colo., Aug. 17.—William B. Felts has mysteriously disappeared. His flying machine with which he was to have attempted the flight from Pike's Peak to Colorado Springs is still housed on top of the peak. There has been rumors that Felts' nerve was becoming shaky which was offset by statements from the professor that he was waiting for a clear day.

Felts went down the mountain side Friday after stating that he was going for a walk, since which time nothing has been seen or heard of him. His friends say he has probably lost his way in the wilderness west of the peak and may have fallen down a precipice and been killed or injured.

They have been searching for him since Friday. The majority, however, are skeptical enough to believe that the professor had not sufficient faith in his own invention. While they acknowledge the conditions have been unfavorable they think the incident which has created so much excitement for the past two weeks is closed.

### TWO KILLED AND THREE INJURED.

#### Frightful Accident at a Crossing of the Canadian Pacific Railroad.

ST. THERESE, Que., Aug. 17.—A Canadian Pacific train from La Chute struck a carriage containing five persons at a crossing near the station yesterday. Mrs. Emelie Martineau and Miss Maria Filiaultreault were killed, and Mr. Dosolie Martineau, Miss Amanda Martineau and her younger sister were badly injured. Miss Martineau is not expected to live.

The party of five started out to attend a funeral. The carriage caught in the track at the crossing, and a freight train, standing nearby, prevented the occupants of the vehicle from seeing the incoming train. The engine struck the buggy with great force, throwing the occupants full 50 yards. The young woman, Miss Filiaultreault, was killed instantly, and the old lady lived only 20 minutes.

### ANDREE HEARD FROM.

#### One of His Pigeons Shot by One of the Searching Parties.

BERLIN, Aug. 17.—The Vossische Zeitung publishes a dispatch from Hamerfest, Norway, which says that one of the searchers for Herr Andree, in a fast steamer, met the sailing vessel Aiken about July and learned from her captain that one of the crew had shot a pigeon between North Cape and Seven Islands, on the north coast of Lapland, bearing a message addressed to The Afonbladet, Stockholm.

The message ran as follows:

"Eighty-two degrees passed. Good journey. Northward. Andree."

The date of the message can not be ascertained.

### SMALL CYCLONE IN NEW YORK.

AMSTERDAM, N. Y., Aug. 17.—Yesterday a cyclone passed from the west to the east, about a mile from the village of Hagaman, a suburb of this city, wrecking several buildings. Three barns were blown down and the house of John Hartig was wrecked. Mrs. Hartig, who was in the building, was badly injured. The cyclone was of short duration. The damage will amount to several thousand dollars. Crops were badly damaged and in some instances ruined.

### Girls Strike Against Italian Women.

GENEVA, N. Y., Aug. 17.—Two hundred women and girls employed by the Geneva Preserving company are on a strike. The cause of the trouble was the employment of four Italian women in the canning-room. About two months ago Manager Palmer brought here 150 Italian men and women to work in the fields, with the understanding that they should not work in the factory. As soon as the Italian women started to work every woman and girl felt.

### Silver Republican Executive Committee.

DULUTH, Minn., Aug. 17.—Chairman Towne has announced the executive committee of the National Silver Republican party. The members are: Chairman, Fred T. Dubois of Idaho; Judge J. J. Harper of Washington; C. H. O.; Ben S. Dean of Jamestown, N. Y.; A. M. Stevenson of Denver; Nathan Cole, Jr., of Los Angeles, Cal.; James H. Temer of Chicago, and Charles S. Hartman of Bozeman, Mont.

### PRISONERS ESCAPE.

TIFFIN, O., Aug. 17.—Ben Ehinger and Harry Speck, who were arrested for drunkenness and placed in the city prison, pried two iron bars of their cell, passed through them, picked the lock leading into the office, and made their escape when the police court was deserted.

#### THE EXCITEMENT HAS SUBSIDED.

No Fears Now of the Suspected Prisoners Being Taken From Jail and Lynched. Danger of a Lynching at Hicksville—An Old Man Bound, Gagged and Robbed. Other Ohio State News.

BELLEFONTAINE, O., Aug. 17.—It seems that the officers in the Detrick murder case have about come to a place where all clews end. The majority of them, as well as all the detectives, believe the mystery is far from being solved, and the murderers are just as far away from the hands of the law as when the murder was discovered.

The Public Ledger Monday copied that fake interview with Senator Stewart and ran it in as an editorial. This was nearly a week old and denounced as false by the Senator two days after it appeared. The gold bugs must be in sad straits.

JUDGE LAWRENCE, for years the prophet of Ohio Republicans on the wool question, is not satisfied with the wool section of the Dingell bill. He says the new tariff law is the worst ever passed and that it will fail to give wool growers the protection they expected and deserved. The Judge asserts that the manufacturers of woolen goods get more protection than they need while the growers on wool get less.

### PERSONAL.

## DOLLAR WHEAT.

Central Kentucky Farmers Waiting For it. They Have Refused Offers of 82 Cents For Their Crop.

[Lexington Leader.] The wheat situation in Central Kentucky has become more interesting than ever. Agents for Forbes & Co., New York, E. D. White & Co. and the Green Commission Company, St. Louis, who have been in this field for the past two weeks trying to buy wheat for export, are about to leave in disgust because the farmers will not sell.

The farmers have stacked a great deal of their wheat because they cannot rent sacks enough to hold it if thrashed, and because the warehouse men want to charge them too much for storage and insurance. Usually the Blue Grass region, of which Lexington is the central shipping point, exports about 3,000 car-loads each year, as the Kentucky wheat is much sought after by English millers. This year conservative estimates show that fully 3,500 car-loads can be exported from here, but the farmers have been taking the newspapers, and they are completely wild over the reports which come from foreign countries regarding the shortage of the wheat crop there.

The bankers are willing to lend money for sixty days to the farmers and take mortgages on their wheat crops for sufficient to pay their July bills. Farmers who offered to sell their wheat at 80 cents ten days ago absolutely refused to sell Saturday when offered 82 cents. They are holding out for \$1.

A prominent Garrard County wheat grower says the farmers of Garrard, Lincoln, Jessamine and Boyle counties have entered into a combine to hold their wheat until the price reaches \$1 per bushel. He estimates that there are now a quarter of a million bushels in the hands of the farmers in that belt of counties.

### Acetylene Gas.

We are now prepared to place on the market our machines for generating acetylene gas. These machines are adapted for lighting stores, factories, churches and private residences. Small towns and farmers can now have gas as well as those in the cities, as each consumer controls his own little gas plant, which is quite inexpensive. We guarantee to furnish six times as much light at less than half the expense of ordinary gas, electric light or kerosene lamps. A first-class agent is wanted in every county to sell our machines. #### WASHINGTON.

Last Thursday evening was the occasion of a most enjoyable society event here, when Miss Lillie Blanchard gave a whistling musicalie, in order to formally dedicate to some of her many friends some pieces which she had composed in their honor. Both her composition and rendering were most soulful and beautiful, and we feel safe in believing that we but voice the sentiment of all to whom her compositions were inscribed, when we say they were proud to be the recipients of her favors. She was graciously assisted by her friends, Misses Phoebe Forman and Edna Hunter, on the program as arranged, and, by requests, by the Misses Best, Misses Mary Forman and Fannie Marshall at intervals later on in the evening. Following we give the regular program:

Waltz—"Gold Bng"—Whistling—Affectionately inscribed to Miss Flora Hunter—Miss Blanchard.  
Waltz—"Free Silver"—Whistling—Affectionately inscribed to Miss Mary Wood Taylor—Miss Blanchard.

Song—"The Song That Touched My Heart"—Miss Forman.

Aria—"Friendship"—Whistling—Affectionately inscribed to Miss Fannie Marshall—Miss Blanchard.

Aria—"Te Joli Bleu Yeu"—Whistling—Affectionately inscribed to Mrs. Wilkes—Miss Blanchard.

Song—"Rosemonde"—Miss Forman.

A Revere—"What Thy Dark Eyes Inspire—Whistling—Affectionately inscribed to Miss Edna Hunter—Miss Blanchard.

Song—"Little Alice"—Miss Forman.

Fantasia—"Tempest and Calm of the Heart"—Whistling—Affectionately inscribed to Mrs. Jas. Marshall—Miss Blanchard.

Recitation—"The Minuet"—Miss Hunter.

By clamorous requests, Miss Blanchard was induced to close the program with her famous Irish recitation, "Miss Molony on the Chinese Question," and to say here brough on this occasion seemed to be the very latest importation, is by no means putting it too strongly. How it was relished was evinced by the rounds of applause when she retired from the floor.

After the refreshments were served Miss Lula Best, with her sister, Miss Elizabeth, as accompanist, sang in a most charming manner the two lovely songs "Marguerite" and "All Through the Night," after which Misses Forman and Marshall enlivened the rest of the evening with some very inspiring instrumental selections.

Cupid breaks his bow at the sight of a face full of pimples. Hollow cheeks, sunken eyes, and a sallow complexion will defy his best intentions. Beauty is more than skin deep. The skin is merely the surface on which is written in plain characters the condition of the body. Dr. Pierce's Golden Medical Discovery is good for the complexion because it makes the whole body healthy—because it clears and purifies the blood, makes the digestion strong and clears out impurities of all kinds. By increasing the ability to assimilate nutritious food, and by the infusion of its own ingredients, it enriches the flesh and so makes solid, healthy flesh. It cures diseases of the lungs, liver, stomach, bowels, skin and scalp, simply because all these diseases spring from the same cause—a disordered digestion and consequent impure blood.

#### THE GRAIN MARKET.

NEW YORK, Aug. 16.—Wheat—Higher cables stimulated the market to-day and under an active trade options advanced 1½c. and cash wheat accordingly. Corn and oats ruled firm and higher with wheat.

ST. LOUIS, Aug. 16.—Wheat—Cash, 92½c.; August, 92½c.; December, 93c. Corn—Cash, 26½c.; bid: September, 26½c.

BALTIMORE, Aug. 16.—Wheat—Cash, 94½c.; September, 92c. bid. Corn—Cash, 23½c. bid; September, 23½c.

CINCINNATI, Aug. 16.—Wheat—Higher prices were again quotable. Only two cars of 2 red were offered for sale and were held above the nominal price, 87 cents. Corn—The demand was good and values were firm. Sales: 1 car No. 2 yellow, track, 29½c.; 2 cars white, ear, track, 29½c.; 2 cars white, ear, track, 28½c.; 1 car do., 28c.; 1 car mixed ear, track, 28c.; 3 cars No. 2 mixed, track, 29c.; 1 car No. 2 yellow, track, 29½c. Oats—Ruled firm, despite heavy receipts.

CHICAGO, Aug. 16.—Wheat—Cables were 1½ pence higher to-day. Paris was also higher. The pit in Chicago immediately took up with the bullish news and first transactions were at prices 1¾c. above those of Saturday. Speculation was wild and the pit crowd was rather erratic. Values were driven a good fraction above the high opening before settling. The undertone was very firm and decided declines were not looked for. The situation in the Northwest is daily growing more acute. Two days' rains have occasioned much wortness, though not seriously damaging the wheat. The climate at this time of the year is rather treacherous in the Northwest and each day's delay increases the possibilities of frost. September wheat opened at 85¢, reached 86¢ and closed at 85½.

The Maysville millers are paying 80 cents for wheat to-day.

#### FELL FROM HIS BICYCLE.

Injury Develops a Cancer Which Resulted in Death.

BLOOMINGTON, Ind., Aug. 17.—Harlow Harvey, 19 years old, died yesterday. The postmortem revealed an interesting incident in medical science. Young Harvey fell from a bicycle a year ago, resulting in a cancer of the bone, which necessitated amputation of the limb. The operation availed nothing, as the disease penetrated every tissue of the body, destroying the usefulness of the vital organs.

The cancer had a notable effect upon the lungs, changing them almost entirely into bone, something not recorded in medical works. The case will be thoroughly investigated and reported for scientific benefit. Drs. J. E. and Edward Harris have it under consideration.

#### WHITE CAPPING REPORTED.

Mathias Hacker and Family Are Dragged From Their Home.

BLOOMINGTON, Ind., Aug. 17.—Another White Capping episode in Monroe county is reported, this time in Washington township. Masked men visited the farmhouse of Mathias Hacker, late at night, breaking down the door with a fence rail, and dragging Mr. Hacker and his son and daughter, together with a woman whose home is in Martinsville into the open air, where they were severely lashed with hickory withes.

Mr. Hacker and son are reported so badly injured that they are still confined to their beds, while the women were not much hurt. The Hacker home is near the Morgan county line.

#### Havana Threatened.

KEY WEST, Aug. 17.—Advices from Havana are that General Gomez has perfected plans for the invasion of Havana province. Every able-bodied Spaniard in Havana has been ordered to take arms. Practically, troops in Havana province are in a state of siege. On three sides are strong bands of well armed, disciplined and well fed Cubans. Formidable bodies of Cubans are now operating directly under the guns of the Spanish forts at Havana, and Weyler is powerless.

#### Violators of the Fish Law Fined.

KOKOMO, Ind., Aug. 17.—Deputy Fish Commissioner Welty, who runs down dynamiters and seiners with his bloodhounds, arrested six violators at the Jerome dam, near here. Frank Chase, Lee Simpson, Isaac and Elmer Newhouse and Sherman Lancaster. The men were fined \$35 each by Justice Moreland, and additional charges stand against Lancaster and the two Newhouses.

#### An Old Man Missing.

CLINTON, Ind., Aug. 17.—Frederick Hibberly, 70 years old, is missing, under circumstances indicating suicide or that he has met with foul play. He is the father of E. L. Hibberly, a prominent attorney of Cayuga. Recently the old gentleman drew considerable money and left for his adopted home in Terre Haute, but after redepositing his money he disappeared.
